

PM GROUP POLSKA

PM Group Polska is the leading provider of professional services in Project and Construction Management, Architectural and Engineering Design and Technical Consultancy to the public and private sectors in Poland.

Con Murphy Managing Director, PM Group Polska

PM designs and project manages the construction of world class facilities and we have been bringing this expertise to Poland since the early 1990s through our Polish company PM Group Polska.

PM Group Polska is now the leading provider of professional services to the construction industry in Poland.

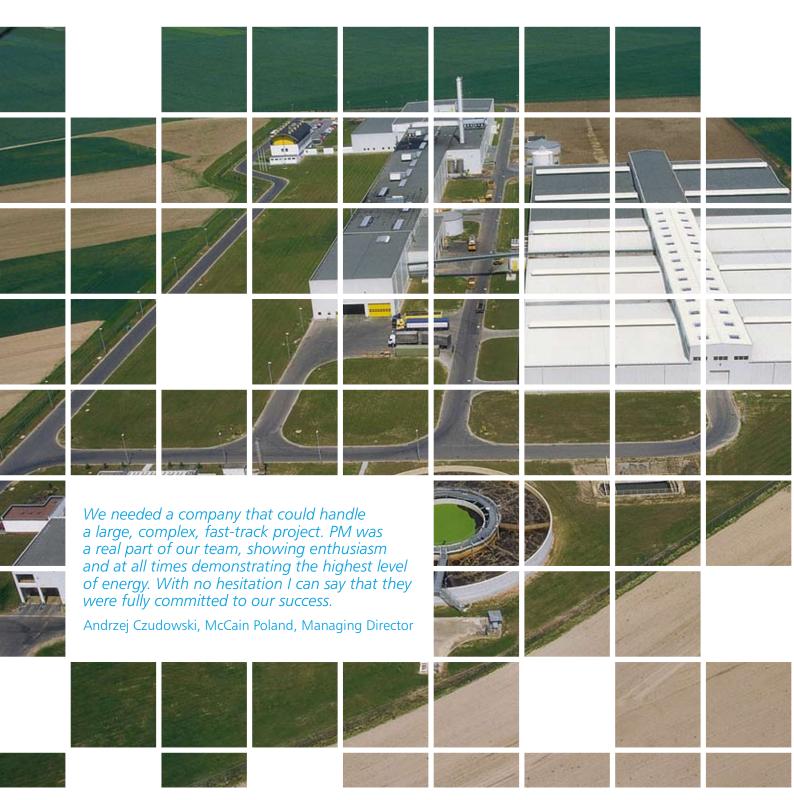

Our team has grown to over 250 Architects, Engineers and Project and Construction Management personnel servicing both the private and public construction sectors.

Our strength lies in our ability to provide international quality services by combining the technical expertise and local knowledge of our Polish Architects and Engineers with our Quality Management Systems developed over 35 years and our resource base of hundreds of international experts.

Whether supervising the construction of a large commercial / retail facility or a major sewerage pipeline for a major city or designing a production facility or healthcare building we make sure no stone is unturned in delivering our clients' projects on time and to budget.

We keep our clients' promises on capital investment projects worth an average of 1bn Euro per year. We would like to keep yours too. Signed,

lan Murfly

McCain Poland, 35,000 m² greenfield potato processing plant in Chociwel, Poland.

- Control project capital costs

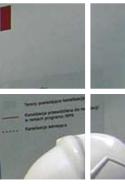

Wrocław water quality improvement project. Extension of municipal sewage network in Muchobór, Wrocław.

PM Group: Partner For The Public Sector

The PM Group brand is recognized by clients and competitors as standing for international quality engineering and technical services in the public sector market in Poland.

PM Group is in the top flight of leading engineering companies providing design, supervision services on EU funded public sector infrastructure projects, in the environmental, transport (roads, rail, air and harbours) and public building sectors. Capital works under PM engineering supervision include large infrastructure projects for Polish Municipalities and public sector utility companies that have received financial assistance under the EU's pre-Cohesion Funds programme:

- Municipality of Wrocław (Urząd Miasta Wrocławia)
- Municipality of Poznan (Urząd Miasta Poznań)
- ▶ Krakow City Water and Wastewater Treatment Enterprise (PWiK)
- Municipality of Szczecin (Urząd Miasta Szczecin / Zakład Wodociągów i Kanalizacji Sp z o.o.)
- > Municipality of Jelenia Gora (Urząd Miasta Jelenia Góra)
- City of Brzeg Water and Wastewater Enterprise (Przedsiębiorstwo Wodociągów i Kanalizacji w Brzegu Sp. z o.o.)
- Nowa Ruda Regional Development Agency (Agencja Rozwoju Regionalnego "Agroreg" S.A.)
- Innovation Centre at the Jagiellonian University in Krakow
- Wroclaw Airport Co.

The projects include supervision / construction management of:

- Municipal water and wastewater networks and transfer / pumping stations
- Municipal water treatment and wastewater treatment plants
- Landfill rehabilitation works
- Airports, roads works
- Public sector building works
- Hospitals

PM Group has a strong track record in the implementation of EU funded consultancy contracts in Poland as well as in neighbouring countries, for example:

- Assistance to the Polish central and regional authorities with the screening and preparation of technical and financial feasibility documentation for projects for EU ERDF funding;
- Training in pollution prevention and control at regional level for staff of the local and regional governments on behalf of the Polish Ministry of Environment;
- Assistance to the Lithuanian Ministry of Environment with the management of the Cohesion Programme in the environmental sector.

PM Group has established a Projects Management Unit in our Wroclaw office to provide all necessary technical and logistical backstopping support to our site teams. This Unit combines the best of international and Polish expertise and experience to guarantee our clients the highest quality service.
